

If you are a passionate Creative 2D Modeler that wants to be part of an exciting global projects we would love to hear from you. You'll be responsible for the creation and maintenance of clients and their great decoration and furniture collections.

This position requires at least +2 years of experience in 3D Modeling and a great passion for aesthetic and interior design.

We're looking for people who are desperately passionate about interior design culture, to be part of a team that is delivering something that's never been done before anywhere. fit with our ethos of showing, the gumption to solve hard problems and the desire to push the status quo to the next level is what we're ultimately looking for in any role here.

**The role**

From our office in Barcelona or from any place around the world you choose to live/produce, as a 3D Senior Modeler, you'll be in charge of producing excellent mesh with a quality of detail, proportion and technical balance that exceed the highest quality standards of the market for interior design of furniture brands.

- Help improve the efficiency of our 3D product mode system.
- Cooperate with other partners in the production of new different styles of mesh.
- Study and propose new ways to develop 3D mesh.
- Produce 3D models of the highest quality.

**We offer**

All of our employees enjoy of labor journeys very flexibles, excellent bonuses and are constantly encouraged to learn. For us, constant improvement is the way to access a lifestyle with internal well-being as a purpose. We implement efficiency methods from the point of view of the personal purpose, putting the person as a center ahead of values such as productivity, efficiency and measurement for economic purposes.

**To apply**

Please apply sending your portfolio and application form that you can find in our web Careers zone to [cv@visualizers.es](mailto:cv@visualizers.es) with 'Senior 3D Artist' as subject.
