

If you are a passionate for industrial design and want to be part of a company working at a global level, then we will love hearing from you.

With us, you will be in charge of the creation and maintenance of some of the most spectacular furniture collections already existing in the market today. We are looking for people that on a daily basis can show us their passion for everything that involves design and who want to join a team that is focused in working at the highest standards of quality worldwide. People proficient in solving complex challenges and always ready to elevate the status of our firm.

**The role**

With us, you will be in charge of the management, first as a freelance then in our payroll, of the production of the 3D models made by our team of modellers, making sure that this production be made within the quality standards defined in our methodologies and certifying that our models fully respect specific properties and characteristics as well as the original design.

This job is for Barcelona residents only, where Visualizers has its main headquarters, an office from which you will also be in charge of keeping that part of the communication with our customers dedicated to production control, as well as with our team of remote modellers, making sure that all the demands made by the former reach the latter in a clear, concise and intelligible way.

It is indispensable that you can prove a minimum of 5 years experience in the field of industrial design as well as know its jargon. You must be proficient in written and spoken English and know some Italian, in order to be capable to perform your communication duties without further problems.

You will also be in charge of the management of the production timings, with the important goal of avoiding delays in our deadlines or, even better, bringing them forward. Finally, you need to show us your skills in 3dStudio Max (the software we mainly use to make the 3D models) because it's necessary to enable you in your production control duties in front of our team of 3D modellers and in your communication with our customers at a more technical level.

As a freelance, you will be paid according to your performance in relation to the amount of 3D model collections managed over a certain period of time. In the other hand, we offer you a variable income for each delivered collection and a bonus for deadlines delivered before the expected date.

If, with time, your performance continues to be positive, we will discuss accessing our payroll with a permanent contract.

**To apply**

Please apply with cv and covering letter to [hello@visualizers.es](mailto:hello@visualizers.es) with 'Controller' as subject line.

All applicants must be eligible to work in Spain and based within a reasonable distance from our studio in Barcelona. All applications will be treated in the strictest confidence. No agencies please.
