

# Art & Photography Director

BoyeroVisualizers is a visualization studio for interior design and architecture created in 2008. Our mission is to use cgi technology to build inspiring architectural photographs and illustrations.

We promote a group culture of feedback and clarity that help us enjoy a united and motivated human team, where each opinion is taken with grand interest. We understand our structure and ideals as something in constant evolution. We work for you, so you have the greatest productive structure and the best tools at your disposition. If you need to make yourself heard, explain your concerns, proffer ideas and take part in the creative process of change at BoyeroVisualizers.

We are currently working on the most important real estate projects of the main USA capitals such as New York, Los Angeles or San Francisco at the same time that we make this vision compatible by creating images for several hyper-luxury resorts in the Middle East.

We need a brilliant Art and Photography Director who has a book full of beautiful projects that prove his worth as a creative and sensitive artist, with a great background in interior design and architecture.

You will be in charge of producing world-class projects demonstrating a sense of aesthetics, photography, color and composition. You will share your excellent visions with our team of aesthetic artists to facilitate the production of beautiful cgi images.

The ideal candidate would be comfortable overseeing a project from start to completion including technical & artistic team management, maintain AAA quality.

Being able to ensure consistency and help to develop the Images, creative approaches, and problem-solving will play a big part in the position. In a collaborative, fast-paced environment where your actions can have meaningful impact on the Images we make, then this role is for you!

What you Will Need:

- 5+ years experience at the archviz industry as a senior 3d artists or as a art director.
- Positive attitude & self motivated with excellent communication skills both written and oral.
- The ability to problem solve issues quickly and offer solutions in a timely manner.
- Through understanding CG and processes' in all departments.
- Experience designing and implementing pipeline tools and processes.
- Advanced knowledge of 3DMax and Photoshop.
- Foster a positive team environment & transparent relationship with production.
- Experience Work with production, tech and art teams day to day to improve and implement tools to increase productivity.
- Fluently speaking Spanish and English

What we offer

We embrace flexible working and we believe individuals can manage their own time  
and focus on how they work best.

We are redesigning our environment. We create spaces to listen to others, feel,  
release and connect. We communicate clearly and cleanly to create united working  
groups.

In this position we would like to provide you with the payment of medical insurance  
and apart from the vacation month by contract, you will enjoy another month of  
disconecction for your personal development and your training as a leader.

Wishing to create a lasting bond with you and share many years of work together.
